### THE WORST NEWS YET

Atrocious Murder of the Russian Minister to China.

WAS BOILED ALIVE.

His Wife Was Tortured to Death With Sharp Sticks—No Word as to the Fate of Any Other Representatives There.

Chicago, July 14.—A dispatch to The Record from St. Petersburg, July 11, via Paris, July 14, says:

"The czar has received with great emotion the dreadful details of the catastrophe at Peking. Tears coursed his majesty's cheeks as he read the cablegram from Admiral Alexieff at Port Arthur, confirming the horrible details of the assassination of M. de Giers, which in the form of rumors had already reached Russia.

The admiral declares the Russian envoy was dragged through the streets by the boxers, insulted, beaten and tortured and even thrown into a kettle and boiled to death. Then the remains were thrown to the dogs. While M. de Giers was being disposed of the fanatic mob danced around the cauldron.

Mme. de Giers, Admiral Alexieff's widow, suffered a fate worse than death and was beaten and tortured with sharp sticks until life was extinct.

Legation officials are said to have been tortured fiendishly until death ended their sufferings. M. de Giers and legation officials resisted desperately and his body guard killed many of the attacking mob. In the midst of his tortures the envoy is said to have heroically proclaimed his faith in Christianity, encouraged by his wife who so soon shared his martyrdom.

The announcement of this intelligence to relatives of the Russian martyrs in China was accompanied by heartrending scenes. Count Lamsdorf received the friends of the murdered ones at the foreign office and unfolded to them the tragedy. The scenes of terror and grief that followed were unspeakable. The building of the foreign office was besieged by an excited throng, and the whole of St. Petersburg is full of lamentation.

Immediately upon the receipt of Admiral Alexieff's dispatch the czar called the cabinet and council of state to go into executive session at once.

#### LI IS WAITING.

He Will Remain at Canton Until Prince Tuan Is Defeated.

London, July 14.—The scanty cable dispatches received here add nothing to the knowledge in London of the Chinese situation. It is stated positively from Canton that Li Hung Chang will remain there until the allied troops have defeated Prince Tuan's forces and will then go north to lend his powerful aid in arranging terms of peace, cooperating with Prince Ching, Yung Lu and other proforeign viceroys. For the present Li Hung Chang considers that he can control and direct the viceroys from Canton and also keep in check the turbulent province of Kwang Tung.

All the foreigners and missionaries have evacuated Wen Chan and have ar-

PRINCE CHING.

rived at Ping Po. Large bodies of boxers appeared at Wen Chan and threatened to exterminate the foreigners and Christians. They also distributed banners, badges and inflammatory antiforeign appeals.

The Tien Tsin correspondent of The Express telegraphed under date of July 9, asserts that the Chinese are daily driving in the allies. They have mounted, says the correspondent, 12 fresh guns in advantageous positions with which they are sweeping the streets of the foreign settlement, the incessant fire rendering position after position quite untenable.

#### PART OF A SCHEME.

Chinese Working to Break the News of the Worst at Peking.

London, July 14.—Though hope is still struggling against the conclusion

that the silence at Peking is the silence of the grave, official admission in both the United States and Europe, that diplomatists have adopted the pessimistic views held by consuls at Shanghai have almost silenced those attempting to reach against circumstantial evidence which is becoming so cogent.

Chinese assurances and edicts appear to observers here to be merely a part of the plan to cautiously break the news of

the tragedy and delude foreigners with a tale of imperial guiltlessness, but if the bombardment mentioned in United States Consul Goodnow's late message occurred, it must have been carried out by Chinese regulars, so the plea of imperial defense of the legations seems to fall to the ground.

The situation at Tien Tsin appears to be slowly but surely growing worse. The allied forces are experiencing the greatest difficulty in sending forward reinforcements, as the Chinese have rendered navigation of the river most difficult by diverting its waters.

Happily St. Petersburg announces officially that the telegraph between Taku and Tien Tsin has been restored and railroad communication will shortly be reestablished.

To other trials of the besieged persons at Tien Tsin has been added the outbreak of scarlet fever.

Dispatches from Tien Tsin report that a number of ladies there have become white-haired through the horrors of the siege.

#### MAY OPPOSE LI.

Boxers to Fight Against His March to the Chinese Capital.

Washington, July 14.—Consul General Goodnow's short dispatch represents all that the state or navy departments know of the developments in China since Friday noon. His news only goes to confirm the general belief that the situation in China is steadily growing worse.

Honan Shansi, referred to by Goodnow as the place where the viceroy appears to favor the boxers, is said at the state department to be actually two separate provinces vast in extent lying in the western and northern portion of China. The two might be an impassible barrier, if, as Goodnow's dispatch indicates, they are disaffected and undertake to oppose the northward march of the armies of Li Hung Chang and other great southern viceroys upon Peking.

No confirmation has reached the state department of the report from St. Petersburg of the torture and death of the Russian minister at Peking.

#### Lost all Hope.

London, July 14.—The British consul general at Shanghai in transmitting to the foreign office messages from the governor of Shan Tung already published, says he fears there will be little doubt in regard to the fate of foreigners at Peking.

#### Favorable to Boxers.

Washington, July 14.—Secretary Hay has received an undated dispatch from Consul General Goodnow at Shanghai announcing that the governor of Honan Fshanti has issued a proclamation favorable to the boxers. Hanan Fshanti is a province lying immediately northwest of Shanghai and between that city and Peking.

#### Fortification of Tien Tsin.

St. Petersburg, July 14.—A dispatch from Khabarovsk, dated Thursday, says the international council of war held at Tien Tsin has decided for the present to confine the efforts of the allied forces to fortifying Tien Tsin and establishing a safe communication with the Taku forts and arsenals. Tien Tsin, it is added, is being rearmend with guns of the highest class.

#### Li Summoned to Peking.

Hong Kong, July 14.—Li Hung Chang has received an urgent telegraph summons to Peking. It is reported that he will proceed north at once. The Chinese agree that his absence is certain to lead to trouble at Canton.

#### All Murdered.

London, July 14.—A news agency report says that an official message received in London states that all the foreigners in Peking were murdered July 6.

#### Second Telegram Seeking Information.

Washington, July 14.—The Chinese minister has sent another cablegram to Taotai of Shan Tung telling him the American government is exceedingly anxious as to the fate of Minister Conger and requesting him to cable any information he may have on that point. This is in addition to the cablegram he forwarded Wednesday at the request of Secretary Hay.

#### Troops for the Orient.

San Antonio, July 14.—General McKibbin has been advised by the adjutant general that no more passes at present would be issued to any person except in the government service for passage on transports across the Pacific. Company G, Twenty-fifth infantry, now here, is ordered to Denver to relieve the troop of the Ninth cavalry at Fort Logan to permit it to go to the Philippines. Assistant Surgeon Eugene Allen has been ordered by the secretary of war to proceed at once here to accompany Company H of the Fifteenth infantry to the orient.

#### Refused to Support Independence.

Cape Town, July 14.—Replying to the deputation of his constituents W. P. Schreiner, former premier of Cape Colony, refused to support the demand for unimpaired independence for the Boer republics, but said he thought they should retain a certain amount of independence. He added that he would not support the policy of amnesty to the rebels.

Herr Groeler, foreign secretary of the Transvaal, has arrived at Delagoa bay.

#### Cut in Grain Rates.

Fort Worth, Tex., July 14.—The Central and Sunset routes and the Cotton Belt have announced a rate of 25 cents on wheat in carloads, the minimum to be 40,000 pounds, to Chicago. This is a cent lower than announced by the Santa Fe. Railroad men claim being confronted by such unusual conditions that the movement of wheat northbound has brought a reversal in the business of transportation companies.

## ROBBERS RUN DOWN.

Two Under Arrest for Looting an  
Illinois Central Train.

## THE THIRD ONE SHOT

Detectives Wound Him, but He Suc-  
ceeds in Making His Escape.  
Barnes Makes a Confession  
Then Repudiates It.

St. Louis, July 14.—Charles W. Barnes  
of 4300 West Belle Place, suspected of  
being one of the robbers who stopped the  
Illinois Central train and looted the ex-  
press car of \$10,000 three miles south of  
Wickliffe, Ky., early Wednesday morn-  
ing, was arrested at his home.

John Nelson of 3658 Finney avenue,  
Barnes' partner, escaped from the de-  
tectives, leaving a trail of blood. Forty  
shots were exchanged between the fugi-  
tive and the officers.

Barnes confessed to Chief Detective  
Desmond and Chief of Police Campbell  
that he, together with John Nelson and  
a man named Dyer, alias Conley, com-  
mitted the robbery of the Illinois Central  
train near Wickliffe, Ky.

Barnes went to the scene of the ro-  
bery on an Illinois Central train, and  
was joined there by Nelson and Dyer.  
When the train which they had decided  
to rob approached they flagged it. He  
covered the fireman with a revolver,  
while Nelson and Dyer went through  
the express car.

The confession was made voluntarily  
but later when he had seen a lawyer he  
declared that the statements he had  
made were made solely to secure the re-  
lease of his wife and that his replies  
were dictated and suggested to him.

Mrs. Barnes and Mrs. Nelson will be  
subjected to an investigation by Chief  
of Detectives Desmond.

It developed that Nelson and Barnes  
are cousins.

### Boiler Explodes.

Muncie, Ind., July 14.—The north-  
bound express on the Fort Wayne, Cin-  
cinnati and Louisville division of the  
Lake Erie and Western railroad was  
wrecked as it was leaving Leeson sta-  
tion Friday night by the boiler explod-  
ing. The train had just left the station  
when the boiler exploded with terrific  
force, but left the cab and tender on the  
track. Engineer Bob Kelley had a leg  
broken and his head cut, but Fireman  
Otto Somers escaped. The passengers  
were badly shaken up and a rain of fly-  
ing iron fell on the cars, but no one was  
injured.

### Human Lightning Rod.

Navasota, Tex., July 14.—During an  
electrical storm lightning entered the  
house of Charles Bagwell, near here and  
struck him on the left side of the head.  
It went downward, severely blistering  
his stomach as it crossed there to his  
right side. Thence it went to his right  
leg and tore the shoe from that foot as  
it passed out of his body. His wounds  
are painful, but not serious.

### Confess to a Bloody Crime.

Sherwood, Tex., July 14.—Three Mex-  
icans have been committed to jail to  
await the action of the grand jury. They  
are charged with the murder of Henry  
Vote. The murder of Vote was pecu-  
liarly atrocious, the motive being ro-  
bery. He was hanged by the neck until  
nearly strangled and finally shot through  
the head. The parties confessed the de-  
tails in open court.

### Hurt by Boiler Explosion.

Sulphur Springs, Tex., July 14.—A  
boiler exploded at the city wells, in the  
eastern portion of the city. There were  
several workmen near the boiler when  
the accident occurred, two of whom  
were badly scalded. A portion of the  
boiler was blown 1000 yards and cut  
down a tree five inches in diameter as  
completely as if done with an ax.

### Blanket Indians Ugly.

Solway, Mich., July 14.—Danger of  
an outbreak by the Blanket Indians on  
Red Lake is increasing. The Indian  
police from the agency have gone over  
to the point where the Blanketers are  
still holding their war dance and it is  
expected trouble will ensue.

question of calling a constitutional con-  
vention.

puties approved the commercial treaty  
between the United States and Italy.

A. Dennison died at his home in this  
city. He won his title in the civil war.

## SOUTHERN COTTON MILLS.

The Progress Made During the Last Ten  
Months Is Surprising.

Baltimore, July 14.—In the 10 months  
ending June 30, southern cotton mills  
took 1,363,144 bales of cotton, or 135,359  
more bales than last year. These tak-  
ing represent more than 88 per cent of  
the total number of bales taken by the  
American cottonmills. This fact is but  
one of the indications of the steady pro-  
gress made by the southern textile indus-  
try, evidenced also during the week by  
the awarding of a contract for a \$75,000  
cotton mill at Fayetteville, Tenn., the ad-  
dition of 6000 spindles, representing an  
investment of about \$100,000, to the  
plant of the Kesler Manufacturing com-  
pany of Salisbury, N. C., and the formu-  
lation of plans for a \$100,000 cotton mill  
at Hillsboro, Tex. Commenting upon  
this development the Manufacturers' Re-  
cord says this week:

"The organization of new cotton mills  
in the south during the last three months  
while, of course, not as active as during  
the preceding three months, has been  
pushed with much vigor. As in the  
first three months of the year, the last  
quarter shows a tendency towards the  
diversification of cotton manufacturing  
and the building of mills equipped for  
finer goods. Established mills that  
have been notably successful continue  
the enlargement of their operations by  
building new mills or extending their  
present plants. Taking the mills defi-  
nitely organized, and omitting all that  
have simply been projected, but the con-  
struction of which has not yet been as-  
sured, and including the spindles to be  
added to mills already established, the  
total for the first six months of the year  
is as follows:

Alabama.....	76,640
Georgia.....	192,428
Mississippi.....	41,340
North Carolina.....	152,932
South Carolina.....	349,252
Tennessee.....	28,500
Texas.....	35,356

Total..... 876,368

"Of entirely new mills to be built by  
new companies, 89 have been re-  
ported since Jan. 1, while a number of  
companies have been organized which  
have not been included in this list, since  
they have not yet commenced the work  
of construction. The capital involved  
in the addition to the south of 876,000  
spindles, being the actual progress made  
in mill buildings since Jan. 1, represents  
an investment of between \$20,000,000  
and \$25,000,000."

The completion to Jackson of the  
Gulf and Ship Island railroad has al-  
ready had an effect in Mississippi typi-  
cal of the general results of railroad ex-  
tension in the south. Already many little  
towns have sprung up along the 125  
miles of the railroad, mills to cut lum-  
ber have been established, and thousands  
of men have secured employment at  
good wages. Another question involved  
in the opening of the new road, that of  
a deep water harbor on the Mississippi  
coast, is referred to as follows by a  
Jackson correspondent of the Manu-  
facturers' Record:

"It has been the cherished dream of  
Mississippi since 1840, and the state has  
made appropriations time and again  
to build a railroad which would give an  
outlet to deep water on our coast, but  
the project has until recently failed.  
Now at Gulfport, which is a thriving  
town of some 2000 inhabitants, it looks  
as though the long-deferred hope of our  
people will be realized. It is the south-  
ern terminus of the Gulf and Ship Is-  
land railroad, and has excellent harbor  
facilities. The government only recently  
made a large appropriation for  
dredging a channel from the piers to  
Ship Island harbor, and the work is pro-  
gressing in a most satisfactory manner."

The rumor that the Carnegie interests  
have purchased extensive Bessemer ore  
properties at Llano, Tex., again calls at-  
tention to the fact that the extensive  
mineral wealth of that district must  
plan an important part in the future  
in the development of American industry.  
If the purchase of this great ore field  
has been made, it must represent an in-  
vestment looking to that future, or else  
an indication that iron and steel works  
are to be constructed there, as the dis-  
tance is too great to justify the shipment  
of ore to the east under the present con-  
ditions of transportation.

### Nebraska Prohibition.

Lincoln, July 14.—The Prohibition  
state convention adjourned after nomi-

### WILL GO BACK.

Finley Says He Intends to Return to Kentucky for Trial.

Indianapolis, July 14.—Charles Finley, ex-secretary of the state of Kentucky, says he intends to go back to Kentucky to stand trial for complicity in the murder of Governor Goebel.

"I should like to go next week," he said. "My only plan for the future is to return to Kentucky to go through the form of a trial. Just as soon as I am satisfied that the rancor of our opponents has died down, I shall return. I shall have to be guided by general observation in deciding that, but, knowing myself to be absolutely innocent, I cannot bear the thought of allowing such an imputation as has been made against me to stand. Governor Taylor feels just as I do."

At the time she resigned she alleges that the company was indebted to her for past services, and that on July 10 she went to the restaurant for a settlement. She was maltreated and ejected violently, causing serious bodily injury. She asks \$30,000 actual and \$30,000 exemplary damages.

The case was heard about two weeks ago by Judge Hancel, sitting in the court of law and chancery, and it was decided in favor of Barbee & Co.

### State Militia Fight.

Springfield, Ill., July 14.—At Camp Lincoln Friday night a general fight occurred between the men of the first and second regiments. ### Drouth in Arizona.

### Why Can't Bryan?

The little town of West celebrated the Fourth by laying the corner stone of its cotton mill. The enterprise of this little town has been surprising and many a larger town would do well to take its action as an example. ### Few Spectators Present.

Georgetown, Ky., July 14.—The attendance at the trial of Ex-Senator Caleb Powers, charged with being an accomplice in the murder of William Goebel, was smaller this morning than at any time since the case was first called. It was believed now only the civil engineer, who measured the state-house grounds at Frankfort where the crime occurred, and doctors who performed the autopsy on the body of the victim will be put on the stand by the commonwealth. The prosecution hoped to show by these witnesses and by the measurements and drawings that the fatal bullet was fired from one of two front windows of the room in the executive building occupied during his term of office by the prisoner, Powers. The evidence, while bearing directly upon the case, had small attraction for the general public.
